**Digital 40pt. Bottle Neck
& Wine Tag Coaster**

Digitally Printed 40pt. Wine Tag and Bottle Neck Coaster (DIG40-WT & DIG40-BPH)

Our new digitally printed Wine Tag and Bottle Neck 40pt. coasters are sure to grab your customers' attention and build up your brand awareness. Made from pulpboard, these coasters easily absorb liquids and spills while still maintaining a beautiful full color, full bleed imprint. The Wine Tag Coaster slides perfectly around almost any wine glass, while the Bottle Neck Coaster has a 2" hole that slides and sits around any bottle neck. These coasters are perfect for your next event, whether it be a wedding, cocktail reception, bar opening, concert, and so much more!

At a wedding reception, champagne glasses are placed at every seat adorned with a wine tag. Tags are printed with pictures of the bride and groom, and serve as a coupon for a free drink at the cash bar. In the case of an open bar, the wine tags can be used for assigned seating.

A winery hosts a tasting on various flavors of wine that they made. For each of the different glasses of wine, there is a wine tag that has the wineries logo printed on it and also the name, flavor, and alcohol content of the wine being tasted.

A new local bar crafts and bottles its' own beer. Bottle neck coasters are placed around the neck of every beer served. The coasters are printed with information regarding the beer, such as, the name, alcohol content, hoppe content, and a menu of all the other beers available to try.

A comedy club has an open mic night and serves bottled beer to guests. Coasters are placed around each bottle neck bearing the schedule of the night's entertainers. On the back side of the coaster is a message stating 'Do Not Take', letting serving staff know the customer is not finished with their beverage.
