Unbreakable Frosted Cups

Unbreakable Frosted Cups (TG398, TG400, TG401, TG402, TG404, TG406, TG408, TG410, TG412)

Garner extra attention for your brand by adding a custom imprint to these unbreakable, frosted tumbler cups! Proudly made in America, BPA free and recyclable, these tumblers make excellent giveaways at corporate events, charity fundraisers and tradeshows. Or...you can use these stylish beverage accessories for everyday use at your restaurant, bar or hotel lounge. Available in 5oz, 8oz, 9oz, 10oz, 12oz, 14oz, 16oz, 20oz, and 24oz, these cups are a creative way to “break” marketing trends!

Employees at an appliance repair shop, use 5 oz. Unbreakable cups as business cards, printed with contact information and a “fill line”. When they deliver and install appliances, specifically washers and dryers, they give imprinted cups to customers. The cups serve as measuring devices for using the correct amount of detergent for the new washer and dryer.

A local bakery fills Unbreakable Cups with all the dry ingredients to bake either cookies or brownies. Measuring lines and baking instructions are printed on the outside, then the filled cups are artistically wrapped in cellophane. The bakery sells the pretty packages at low prices to patrons wanting gifts that are easy on the wallet.

A City's Chamber of Commerce hosts an annual golf outing where lunch is served between rounds. Drinks for lunch are served in Unbreakable cups imprinted with next years' outing date, prize holes and prize descriptions. Golfers can then take the cups home as souvenirs.

A restaurant located on a lake, serves drinks in our Unbreakable cups on their dinner cruise boat. Guests enjoy dinner, drinks and a tour of the lake and need not be concerned about dropping their glass and risk sharp pieces falling into the water. Shatterproof and stylish with Unbreakable cups, the restaurant doesn't have to worry about broken glass, and still maintains their high quality of products and service.
